Information Technology
La Consolacion College Bacolod |
2014 – 2019

PERSONAL PROFILE

Full-stack Web Developer with extensive experience building scalable web applications, custom CMS solutions, and high-performance digital platforms. Skilled in modern JavaScript technologies including Vue.js, Node.js, and TailwindCSS, with strong expertise in WordPress, Magento, and Webflow development.

Experienced in delivering production-ready systems ranging from enterprise websites to full recruitment platforms and AI-driven applications. Adept at translating complex business requirements into reliable technical solutions while maintaining clean architecture, performance optimization, and responsive user experiences.

SKILLS

Frontend Development

- JavaScript, Vue.js, React, HTML5, CSS3, TailwindCSS, Bootstrap, LESS, jQuery

Backend Development

- Node.js, PHP, Laravel, REST APIs

CMS & Ecommerce

- WordPress, Magento 2, Webflow, Aimeos

Databases

- MySQL, MongoDB, PostgreSQL

Tools & Version Control

- Git, Vite, Postman, Deployment & Hosting

WORK EXPERIENCE

Aldrtz Corporation • Bacolod, Negros Occidental - (Company)

01/2020 - 01/2021

- Developed a Magento 2 multi-vendor eCommerce platform with custom features
- Built a WooCommerce-based online store with enhanced user experience
- Created an Attendance Monitoring System to streamline internal operations
- Worked on both frontend and backend, ensuring system reliability and performance

WP Tangerine – Remote

02/2021 - 02/2023

- Developed and maintained WordPress and WooCommerce websites for multiple clients
- Delivered scalable and cost-efficient solutions aligned with client business goals
- Customized themes, plugins, and integrations to extend platform capabilities

Capella BPO – Remote

03/2023 - 08/2023

- Developed an AI-driven health inquiry platform, integrating intelligent response handling and backend logic
- Built and maintained WordPress-based eCommerce and content platforms
- Improved system performance and user experience through optimization techniques

Growmodo – Remote

09/2023 - 01/2025

- Developed and delivered custom WordPress websites, landing pages, and web applications for international clients
- Implemented responsive, performance-optimized UI/UX using modern frontend practices
- Customized WordPress using PHP, hooks, and advanced configurations beyond page builders (Elementor, etc.)
- Collaborated with cross-functional teams to translate business requirements into scalable technical solutions
- Managed multiple projects under tight deadlines while maintaining high-quality standards and client satisfaction

MSB8 Developer - (Part-time / Project Base)

02/2025 - 07/2025

- Built custom WordPress solutions using Elementor, Divi, JetEngine, and custom PHP logic
- Developed advanced features using WordPress hooks, dynamic data, and custom integrations
- Optimized website performance, accessibility, and responsiveness across devices
- Delivered scalable and maintainable solutions tailored to client-specific requirements

Xulvar - (Project Base)

08/2025 - 04/2026

- Architected and developed a full-stack ATS + CRM platform using the PEVN stack (PostgreSQL, Express, Vue, Node.js)
- Implemented AI-powered resume parsing and semantic candidate-job matching
- Designed scalable backend systems and REST APIs for recruitment workflows
- Built dynamic frontend interfaces with Vue 3 for real-time data handling and user interaction
- Focused on system performance, modular architecture, and maintainability

CERTIFICATES

- Finalist DIST's Philippine Startup Challenge (2019)
- Philippine Programming Contest (2018)
- Best in Feasibility Study (2018)
- Best Programmer in Feasibility Study (2018)
- WordPress Certificate of Completion (2024 - Growmodo)
